

The time schedule is subject to change.

JST	GMT	Research Title
17:10-17:15	08:10 - 08:15	Studies on the generation and maintenance of immunological memory to malaria infection
17:15-17:20	08:15 - 08:20	Parasite's Sticky Fingers or: how the zoonotic malaria parasite Plasmodium knowlesi changed RBCs to bind to endothelial cells
17:20-17:25	08:20 - 08:25	Investigating the pathways to adverse pregnancy outcomes among women infected with malaria infection and/or sexually transmitted/reproductive tract infections during pregnancy in sub-Saharan Africa
17:25-17:30	08:25 - 08:30	We need a new good diagnostic test for scrub typhus!
Q&A		
17:40-17:45	08:40 - 08:45	Strategies towards ending the burden of neglected infectious diseases - Assessing the success of PDP model and its approaches
17:45-17:50	08:45 - 08:50	Establishing a protracted refugee birth cohort
17:50-17:55	08:50 - 08:55	Long-term trends in mortality risks associated with short-term exposure to air pollution in 10 Japanese cities
17:55-18:00	08:55 - 09:00	Phylogenetic Inference of Pneumococcal Transmission in Vietnam
Q&A		
Break (18:10-18:20/9:10-9:20)		
18:20 -18:25	09:20 - 09:25	Unravelling transmission dynamics of influenza and its interaction with other respiratory viral pathogens in the population of Kamigoto island, Japan
18:25 - 18:30	09:25 - 09:30	Elucidation of the pathogenesis of idiopathic multicentric Castleman's disease
18:30 - 18:35	09:30 - 09:35	Epidemiological investigation of environmental risk factors using big data methods (Air pollution and cardiovascular diseases)
18:35- 18:40	09:35 - 09:40	Improving completion of Rabies post-exposure prophylaxis
Q&A		
18:50 - 18:55	09:50 - 09:55	Understanding the Impact of Social Contact on Infectious Diseases: Application to COVID-19 in Japan and the United Kingdom
18:55 - 19:00	09:55 - 10:00	Investigating the mechanisms of insecticide resistance in sub-Saharan Africa
19:00 - 19:05	10:00 - 10:05	The Additional Impact of the Pneumococcal Vaccine on Antimicrobial Resistance in Japanese elderly
19:05 - 19:10	10:05 - 10:10	Understanding factors contributing to the outbreaks of diphtheria in Viet Nam
Q&A		
19:20 - 19:25	10:20 - 10:25	Effects of marine carotenoid, astaxanthin on the health of the elderly
19:25 - 19:30	10:25 - 10:30	Analysis of physiological roles of liquid-liquid phase separation(LLPS) in Plasmodium falciparum
19:30 - 19:35	10:30 - 10:35	Genomic variation and population dynamics of Plasmodium falciparum in Lake Victoria, Kenya
19:35 - 19:40	10:35 - 10:40	Exploring barriers and facilitators of diabetes management within the Philippines tuberculosis programme: a mixed-method study
Q&A		
Overall comments from Sir Brian Greenwood		
Announcement of Prize winner from WISE director Prof Kita
